CRYPTOQUEST

Duration – **1 hour**

- This is an **INDIVIDUAL** event. You have to fly solo.
- Various questions involving ciphers, steganography and clue hunting will be provided to you. You will simply have to give us the flags (answers), which will be hidden inside the questions.
- Knowledge of computer programming **WON'T** be required to solve the problems.
- Although the event will be conducted on Linux, absolutely **NO knowledge of Linux will be required** to solve the problems.
- Participants won't be allowed to use any external electronic devices.
- Internet Access may be provided to the participants. In case it is not, we will provide you with almost all the knowledge, you will require to crack the questions.
- In event of a tie, the individual to solve the most difficult questions first, will be considered the winner.
- Decision of the coordinators will be final and binding.
